

Mehak Varshney

Frontend Developer | Java Full Stack Developer

+91 84453 61678 mehakvarshney1320@gmail.com LinkedIn GitHub

PROFILE SUMMARY

Results-driven Frontend Developer with solid backend fundamentals, experienced in building responsive and scalable web applications using **React.js, JavaScript, Tailwind CSS, Vite, Java, and Spring Boot**. Proficient in Data Structures & Algorithms, Object-Oriented Programming, RESTful API development, and Java 8 features. Hands-on experience with **Generative AI integration using APIs (Gemini/OpenAI)**, prompt-based workflows, and AI-powered feature development. Committed to writing clean, maintainable, and efficient code.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

Backend & Database: Spring Boot, MongoDB, MySQL, RESTful APIs, Hibernate, JPA

Programming Languages: Java (Core + Java 8), SQL, Python (Basics)

Core CS Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

AI & Modern Tools: Generative AI APIs (Gemini), Prompt Engineering, API Integration

Tools & Platforms: Git, GitHub, Vite, VS Code, Postman

EXPERIENCE

Frontend Developer Intern

July 2025 – Sept. 2025

BAOIAM Innovations Pvt. Ltd. | React.js, Tailwind CSS

Mathura, India

- Built **15+ responsive UI screens** for the NextKnott dating platform using React.js and Tailwind CSS.
- Engineered reusable components and onboarding flows, improving UI consistency by **30%**.
- Enhanced application performance by refactoring large components and optimizing state management with React Hooks.
- Integrated RESTful APIs to enable dynamic data rendering and a seamless user experience.

PROJECTS

TRAINZY | React.js, Node.js, MongoDB, Tailwind CSS

GitHub

- Developed a full-stack web platform for booking training sessions with geolocation-based trainer matching.
- Implemented real-time chat functionality enabling seamless trainee-trainer communication.
- Designed a responsive frontend using React.js and Tailwind CSS; built backend services with Node.js and MongoDB.

QUANTITY MEASUREMENT APP | Java, Spring Boot

GitHub

- Built a unit conversion application supporting Length, Volume, and Mass using Java and Spring Boot.
- Applied scalable design patterns leveraging OOP principles, enums, and an interface-based architecture.
- Exposed RESTful APIs for measurement conversion with robust input validation and exception handling.

JOB HELPER | React.js, Supabase

GitHub

- Created a responsive job listing platform featuring advanced search and multi-parameter filtering.
- Delivered a polished, cross-device UI using Tailwind CSS, ensuring consistent responsiveness across screen sizes.

EDUCATION

GLA University

Mathura, India

B.Tech. in Computer Science & Engineering | CGPA: 7.69

2022 – Present

HONORS & AWARDS

- Finalist, **Smart India Hackathon 2024**: Built “Mentor Connect” as part of a six-member team.
- NPTEL Discipline Star – recognized for academic and technical excellence.
- Solved **200+** Data Structures & Algorithms problems on LeetCode (Profile).
- Certifications: Full Stack Development (Apna College), Java & OOP (Great Learning), Python Essentials 1 (Cisco).
